

University of Florida |  
Clinical Cardiology Case Conference - Gainesville - 2024

**UFC (UF Cardiology) welterweight fight card: anatomical vs functional testing in the PROMISE Trial**  
12/20/2024 | 07:30 AM - 08:30 AM | Gainesville, FL

**Presented By:**

Abel Ignatius, MD

University of Florida

**Learning Objectives:**

Upon completion of this activity, participants should be able to:

- 1 Review current guidelines for the evaluation of coronary artery disease according to pre-test probability.
- 2 Report and compare outcomes in low- to intermediate-risk patients with chest pain undergoing anatomical versus functional testing.
- 3 Integrate and apply the findings of the PROMISE trial in clinical practice.

**Faculty & Planner Disclosures**

University of Florida College of Medicine adheres to the ACCME's Standards for Integrity and Independence in Accredited Continuing Education. All individuals in a position to control a CME activity's content, including faculty, planners, reviewers, and/or others, must disclose all financial relationships with ineligible companies (commercial interests). Conflict of interest information for the CME Advisory Committee members can be found on the following website: <https://cme.ufl.edu/disclosure>. All relevant financial relationships have been mitigated.

Name of individual	Individual's role in activity	Nature of Relationship(s) / Name of Ineligible Company(s)
Abel Ignatius, MD	Faculty	Nothing to disclose - 12/04/2024
