

“Reducing Length of Stay & Enhancing Advocacy for Patients with Severe Mental Illness in General Hospitals”

Hochang (Ben) Lee, MD

*John Romano Professor & Chair,
Dept. of Psychiatry, University of Rochester
School of Medicine & Dentistry
Chief of Psychiatry, Strong Memorial Hospital
Regional Chief of Psychiatry, University of
Rochester Medical Center*

Upon completion of this activity, participants should be able to:

Recognize the role of consultation-liaison psychiatrists in advocating for equitable care for patients with severe mental illness in general hospitals.

Explain the principles & elements of the proactive consultation-liaison psychiatry model that integrates behavioral health services into acute medical services, as described by the APA Resource Document.

Identify the key advantages of the proactive consultation-liaison model over the conventional consultation-liaison model such as reduced hospital length of stay, enhanced psychiatric service utilization, reduced time to psychiatric consultation, & improved provider and nurse satisfaction.

This presentation will be given in-person at UF Psychiatric Hospital (Vista), Room 1901.

In-person watch parties will be held at the McKnight Brain Institute, L4-101 and AOPC, Room 3242.
